Danforth BIA

**RE: Parking and East End Streetcar Routes**

Dear Chair Albert Stortchak and Board Members,

It was great to have you at the meeting on February 8, 2017 and thank you for your letter of support at Toronto and East York Community Council.

When I saw the initial report I was very concerned that unnecessary parking restrictions were being put in place, and I asked Transportation Services to review. As you know, I support our small business districts and understand that unnecessary parking restrictions can hurt businesses trying to make ends meet in a highly competitive environment. Every minute counts. I am happy that from their further analysis their recommendations were revised to the following:

- Leave no-stopping hours as they are on the north side of Queen St. East between Pape Ave and Carroll St.
- Change no-stopping hours from 4:00 pm - 6:00 pm to 3:30 pm - 6:30 pm on the south side of Queen St. East between Carroll St. and Broadview Ave, instead of between Carroll St. and McGee St.
- Change no-stopping hours from 4:00 pm - 6:00 pm to 4:00 pm - 6:30 pm on the east side of Broadview Ave between Millbrook Crescent and Danforth Ave, instead of between Gerrard St. East and Danforth Ave
- The streetcar stop on the east side of Broadview Ave at Danforth Ave will be removed except for late night service

I am always happy to work with you on these important issues. Please don't hesitate to contact me if there's anything I can do to help you with your BIA's. Please share this letter with your members.

Sincerely,

*Paula Fletcher*

City Councillor  
Ward 30, Toronto Danforth
